

Just When I Need You

Chely Wright

Another night
Another worry
Cause our lives
Are in a hurry
I second guess
Are we the best
That we were meant to be?

I need to sleep
My head is spinning
It's like I'm back
At the beginning
When I was scared
And unprepared
For you and me

Then you kiss me slow

Oh... just when I need you
Just when I need you most
You seem to know
Just when I need you
Just when I need you most
You always know

I had a dream
Where I was falling
And you couldn't hear me calling
I tried to move
To get to you
But you were gone

When I woke
You were there
And your glow
Filled the air
You're my light
So hold me tight
Keep me hanging on

Oh... just when I need you
Just when I need you most
You seem to know
Just when I need you
Just when I need you most

Draw me closer
Pull me under
I'm gonna breathe you in

Oh, just when I need you
Just when I need you most
Oh... just when I need you
Just when I need you most
You seem to know
Just when I need you
Just when I need you most

You always know
You always know
