

## Say the Word

Chely Wright

I know it's crazy, cause the two of us have already been there  
We've pulled ourselves out of the ashes where we both got burned

I used to panic at the notion of descending into love  
Guess we forget how hard we tumble and that falling can hurt  
But what if it works?

Say the word, say the word  
I'm yours  
We don't have to hide our hearts  
Even if they break apart  
Say the word, say the word  
I'm yours  
Could be the best we ever find  
Venus is a mastermind

Maybe your mystery is causing me to let down my guard now  
Maybe I've spun around in circles by myself long enough  
All I can dream about is how much I just need to be with you  
And now I wanna be the one to whom you're giving your love  
It's all I'm thinking of

You just gotta say the word, say the word  
And I'm yours  
We don't have to hide our hearts  
Even if they break apart  
Say the word, say the word  
I'm yours  
Could be the best we ever find  
Venus is a mastermind

Say the word, say the word  
And I'm yours  
We don't have to hide our hearts  
Even if they break apart  
Say the word, say the word  
And I'm yours  
Could be the best we ever find  
Venus is a mastermind  
Could be the best we ever find  
Venus is a mastermind
