별빛을 노래하는 노래
달빛이 내게 주는 소리
모든 순간은 내게 소중한 노래
봄이 오는 그날을
그대 한가운데
그대 향기로운 이슬
순수한 마음

The scent of flowers fills the air  
I hear you coming beyond the moonlight  
Every moment is so beautiful, even the tears  
The story that was like spring, hmm  
A flower, a piece of your heart  
I can't forget even the fragrance  
The tears that swept away, did you  
Not know their meaning back then?

The stars far beyond, beyond, beyond, beyond  
I am by your side  
So you won't be lonely or cold anymore, I sing  
That you are my sun-like star

I can't forget you, who even embraced winter  
Not even for a moment  
Back then, trembling in the cold, did you  
Not know the meaning?

The stars far beyond, beyond, beyond, beyond  
I am by your side  
So you won't be lonely or cold anymore, I sing  
That you are my sun-like star

Remember, even for a moment  
Don't forget the nights that shone with our shared secrets  
Remember, even for a moment  
Don't forget our stars in the night sky over there

One day, when you suddenly recall our night  
I hope to see your smile  
Even the fleeting pain and the hot tears  
Beyond that starlight
