

Baddest

Cher Lloyd

So you think you know what bad is, bad is
But baby I'm the baddest, baddest
Take you to another planet, planet
Higher than the sun
Say you gotta couple habits, habits
Let me be the baddest, baddest
Got you crazy cause I'm batshit, past it
But we could have some fun

Sorry if I break your heart
Sorry if I key your car
Sorry if I leave a scar
Clawing at your back too hard
Sorry if I blow your mind
Sorry, I could go all night
Don't say I didn't warn ya
Boy I warned ya
Boy I warned ya

With my red dress
Matching with the lipstick
Make you go ballistic
I see it in your eyes

So you think you know what bad is, bad is
But baby I'm the baddest, baddest
Take you to another planet, planet
Higher than the sun
Say you gotta couple habits, habits
Let me be the baddest, baddest
Got you crazy cause I'm batshit, past it
But we could have some fun

I'll be bad if you want it, bad if you want it bad
Bad if you want it, bad if you want it bad
Best that you never, best that you never had
So you think you know what bad is

With my red dress
Matching with the lipstick
Make you go ballistic
I see it in your eyes

So you think you know what bad is, bad is
But baby I'm the baddest, baddest
Take you to another planet, planet
Higher than the sun
Say you gotta couple habits, habits
Let me be the baddest, baddest
Got you crazy cause I'm batshit, past it
But we could have some fun

I'll be bad if you want it, bad if you want it bad
Bad if you want it, bad if you want it bad
Best that you never, best that you never had
So you think you know what bad is
