

# Loaded Gun

Cher Lloyd

Some call me crazy, I might be insane  
If you can't handle, get out of my way  
Don't know what's wrong but I feel okay  
I can't see heaven 'cause it's too far away

But I kill my blessings every time I pray  
I don't make excuses when I lose my way  
Baby come and give me some

I just can't control myself  
I'm all fired up, I'm all fired up  
Touch me right, I will go off like a loaded gun  
Like a loaded gun  
I just can't control myself  
I'm all fired up, I'm all fired up  
Touch me right, I will go off like a loaded gun  
Like a loaded gun  
Watch out I'm a loaded gun  
Like a loaded, loaded  
Watch out I'm a loaded gun

You're burning rubber and I'm drinking Jack  
What a disaster, there's no turning back  
People look down but I'm looking up  
It's my religion and I don't give a fuck

But I kill my blessings every time I pray  
I don't make excuses when I lose my way  
Baby come and give me some

I just can't control myself  
I'm all fired up, I'm all fired up  
Touch me right, I will go off like a loaded gun  
Like a loaded gun  
I just can't control myself  
I'm all fired up, I'm all fired up  
Touch me right, I will go off like a loaded gun  
Like a loaded gun  
Watch out I'm a loaded gun  
Like a loaded, loaded  
Watch out I'm a loaded gun

When the smoke clears and it's you and I, oh, oh, oh  
We can battle 'til end of time, oh, oh, oh  
I just can't control myself, yeah  
Touch me right, I will go off like a loaded gun

I just can't control myself  
I'm all fired up, I'm all fired up  
Touch me right, I will go off like a loaded gun  
Like a loaded gun  
Watch out I'm a loaded gun  
Like a loaded, loaded  
Watch out I'm a loaded gun
