

Lost

Cher Lloyd

I heard from a friend of a friend
That you've been checking back in, Mhm-mhm
'Cause I said goodbye, moved overnight
And you haven't heard much since then
Wondering how I'm doing now

It's none of your business, first of all
Wondering how I'm doing now
But if you've got to know, well sure
Well sure

You think I'd be lost
Think I'd be lost without you, lost
Is it hard knowing you're wrong?
See I got lots without you, lots without you

Great sex in the morning, sex in the morning, someone to hold me
I got lo-oh-oh-oh-oh, lots
Stay out in the nighttime, out in the nighttime, have me a wild time
I got lo-oh-oh-oh-oh, lots

You heard from a friend of a friend
That I've been doing just fine, I-I
You don't want me, you just want me
To keep wanting you all of the time
But if you were wondering

It's none of your business first of all
Wondering how I'm doing now
But if you've got to know, well sure
Well sure

You think I'd be lost
Think I'd be lost without you, lost
Is it hard knowing you're wrong?
See I got lots without you, lots without you

Great sex in the morning, sex in the morning, someone to hold me
I got lo-oh-oh-oh-oh, lots (Yeah)
Stay out in the nighttime, out in the nighttime, have me a wild time
I got lo-oh-oh-oh-oh, lots

To be honest, I think I dodged a bullet with you
And I don't know how I didn't see it coming, but ooh

Yeah, you got a God complex
Now I'm thanking God you're my ex
I hope you don't trip up on yourself
If you think you're so hot, go back to hell (Go back to hell)
'Cause you think that I'd

You think I'd be lost (Be lost, be lost)
Think I'd be lost without you, lost
Is it hard knowing you're wrong? (Knowing you're wrong)
See I got lots without you, lots without you

Great sex in the morning, sex in the morning, someone to hold me

I got lo-oh-oh-oh-oh, lots (Yeah)
Stay out in the nightttime, out in the nightttime, have me a wild time
I got lo-oh-oh-oh-oh, lots

La-la-la-la-la-la-la-la-la-la
