

# Favourite Scars

Cher

Best jump  
Like do we feel we're going nowhere  
Unless we're falling  
We're not ready to give up until we're crawling  
Don't make it easy on ourselves

Climbing  
Risk it all if you ain't living you're surviving  
Tell me why you tip your toes when you could dive in  
Don't be scared to hurt yourself

Take your heart back off the shelf

Love covers you up in a landslide  
Love pulls you under like a riptide  
Love's when you crash trying to hang glide  
Love's when you run and then there's no light

Love is a sword when you've got no defense  
Love is the rock we throw ourselves against  
Love is the healing of a broken heart  
The story behind all of my favorite scars  
Oh, all of my favorite scars  
All of my favorite scars  
Oh, all of my favorite scars

High-wire  
Don't look down, because below you is a raging fire  
But love is waiting for you on the other side  
We're not easy on ourselves

So take your heart back off the shelf

Love covers you up in a landslide  
Love pulls you under like a riptide  
Love's when you crash trying to hang glide  
Love's when you run and then there's no light

Love is a sword when you've got no defense  
Love is the rock we throw ourselves against  
Love is the healing of a broken heart  
The story behind all of my favorite scars  
Oh, all of my favorite scars  
All of my favorite scars  
Oh, all of my favorite scars

Love covers you up in a landslide  
Love pulls you under like a riptide  
Love's when you crash trying to hang glide  
Love's when you run and then there's no light

Love is a sword when you've got no defense  
Love is the rock we throw ourselves against  
Love is the healing of a broken heart  
The story behind all of my favorite scars  
Oh, all of my favorite scars  
All of my favorite scars

Oh, all of my favorite scars
