

# Pride

Cher

Livin' it up, livin' it up  
We're livin' it up  
While the world is catching fire  
Dancing in the flames

Feelin' in love, feelin' in love  
We're feelin' in love  
And we're burning with desire  
And waiting out of space

And if it was the last chance to shine  
I know that we could make it alright  
We're gonna put it on on the line  
Everytime

We got pride  
We own, we own the night  
We are, we are the light  
This is within your life  
And we won't stop now  
Give up a sign  
and we won't stop now  
This is our time  
Pride  
We own, we own the night  
We got pride

Giving it up, giving it up  
Giving it up  
In the hail of broken chains  
Raining down for days  
Never enough, never enough  
Cause never enough  
When ur always chasing dreams  
We can still believe

And if it was the last chance to shine  
I know that we could make it this time  
We're gonna put it on on the line  
Oh, and everytime

We got pride  
We own, we own the night  
We are, we are the light  
This is within your life

And we won't stop now  
Give up a sign  
and we won't stop now  
This is our time  
Pride  
We own, we own the night  
We got pride

Oh oh oh oh oh oh oh  
Oh oh oh oh oh oh oh  
Oh oh oh oh oh oh oh

We got pride  
We own, we own the night  
We are, we are the light  
This is within your life

And we won't stop now  
Give up a sign  
And we won't stop now  
This is our time  
Pride  
We own, we own the night

We got pride  
We own, we own the night  
We are, we are the light  
This is within your life

And we won't stop now  
Give up a sign  
and we won't stop now  
This is our time  
Pride  
We own, we own the night  
We got pride
