

# I Will Wait For You

Cherelle

I remember how it was before you came along  
I always dreamed of someone just like you  
Then you made that dream come and whenever you're away  
I spend my day thinking about you

I will wait for you  
Don't have to worry  
'Cause I'm not in a hurry  
I'm gonna wait  
I will wait for you  
I can clearly see  
You're everything I need  
So I'm gonna wait  
I will wait for you

I don't even feel alone knowing each night you'd back home  
Loving me more than the night before  
We were shown in countless ways, the love you feel for me  
And you can believe you mean the world to me

I will save my love for you  
Until you return until the end

I will wait for you  
You don't have to worry  
'Cause I'm not in a hurry  
I'm gonna wait  
I will wait for you  
I can clearly see  
You're everything I need  
So I'm gonna wait  
I will wait for you

You don't have to worry  
'Cause I'm not in a hurry  
I'm gonna wait  
I will wait for you  
I can clearly see  
You're everything I need  
So I'm gonna wait  
I will wait for you

I will wait for you

I'm gonna wait  
I'm gonna wait  
I'm gonna wait for you
