

Like I Will

Cherrelle

Satisfy me to free your conscience
And make the right decision and give your ode
That you'd be faithful to me and no other
And I'll give you all I have to offer
Not to boast but does an awful lot

No one's gonna love you like I will
No one's gonna kiss you like I will
No one's gonna treat you like I will
Nobody's gonna make you feel like I will

Let me give some reasons
That you would want to be with me
I won't give you complications
And besides ain't nobody better
Let me tell you something

No one's gonna love you like I will
No one's gonna kiss you like I will
No one's gonna treat you like I will
Nobody's gonna make you feel like I will
Again!

No one's gonna love you like I will
No one's gonna kiss you like I will
No one's gonna treat you like I will
Nobody's gonna make you feel like I will

Playing on the streets with all the others
Like a wild man giving up all your odes
I could get stunned and slow down and get serious
'Cause I can't wait around, honey
I'll be gone and that ain't no joke

No one's gonna love you like I will
No one's gonna kiss you like I will
No one's gonna treat you like I will
Nobody's gonna make you feel like I will
Blow!

You had other girls
I had other guys
Now it's our chance to satisfy each other's need
Don't blow it, baby 'cause I won't wait around

Huh, I just want to talk to you
But the sun is so sunny!

You better get it while you can

Hey, you! Solo!

No, not you! You, solo!

Yeah, that's what I'm talking about!

Whoo!

Right!

Hey, hey, wait, wait, wait a minute!

Where's the singers at?

Singers, did anybody tell you to stop singing!

Yeah!

No one's gonna love you like I will

No one's gonna kiss you like I will (Whoo!)

No one's gonna treat you like I will

Nobody's gonna make you feel like I will

Again!

Nobody's gonna make you feel like I will

Again!

Nobody's gonna make you feel like I will

Stop!

Go!

No one will ever give it you like I will

No one will ever treat you like I will

No one will ever love you like I will

And no one will ever make you feel like I will

No one will make you feel like I will

Come on, y'all!

Party, y'all!

Whoo!

If you think you can handle it

Then ring my doorbell!

Shucks!

Where's my singers at?

I mean y'all ain't done yet!

So come on back out here!

No one's gonna love you like I will

This my favorite song!

Nobody's gonna make you feel like I will

Where did all of these animals come from?...
