

# Where Do We Go From Here?

Cherrelle

Where do we go from here in this love affair?

Joy and happiness good times we can't forget  
That what we shared together in this love affair  
Misery and pain scares that still remain  
It was all apart of growing in this love affair  
But now we've reached a point of no return  
And now we must go it alone  
But somehow I feel there's something left to learn  
But the go ahead is so unclear

Where do we go from here  
In this love affair  
The love that once was here  
Is no longer there  
So tell me baby where do we go  
Now I must know  
Where do we go from here  
In this love affair  
Where do we go from here  
In this love affair

We use to lay awake at night  
Trying to make it right  
Planning out our future in this love affair  
But if the truth it was what a seemed  
They were only broken dreams  
There's nothing left to gain in this love affair  
But love  
It seems our love is reaching in  
And we must never look back  
But somehow I want to know that we could still be friends  
Even though our life won't be the same

Where do we go from here  
In this love affair  
The love that once was here  
Is no longer there  
So tell me baby where do we go  
Now I must know  
Where do we go from here  
In this love affair  
Where do we go from here  
In this love affair

Wait a minute  
Where do we go from here

We never took the time to talk  
About what was wrong  
Ooh, love affair  
Girl, I don't know but now I need to know  
Where do we go, Cherrelle  
But it's over, boy  
I'm sorry it's over  
It's to late now it's over  
The love we shared is a thing of the past

I had to hurt you like that  
Ooh oh, our love  
Wasn't strong as a rock  
Don't you know that what you got  
Ain't all right  
Just go away  
Come blow it off  
I can't let you go, girl  
Just take me back  
No, it's just a love affair  
Like yours and mines yay...
