The World Could Turn

Cherry Ghost

Now the 11th hour
Is gonna' slip right through your fingers
Rise like an old prize fighter
That's been K.O.'d on the canvas

Haven't you learned?
In a heartbeat
The world could turn
The world could turn.

No sense in getting sad
Now he's pissed away the real fun
Some day a caped crusader
Will give you back the dreams you lean on

Haven't you learned?
In a heartbeat
The world could turn
The world could turn.

Haven't you learned?
In a heartbeat
The world could turn
The world could turn.

For every end there's a beginning
Oh what's a life if not for living?

Cause either way you just keep spinning
So just sit tight, we'll try to get through this alive

A teenager out of time
Trying to kick it with the cool kids
Some day this life will find you
Sitting pretty in your own skin

Haven't you learned?
In a heartbeat
The world could turn,
The world could turn.

For every end there's a beginning
Oh what's a life if not for living?
Cause either way you just keep spinning
So just sit tight, we'll try to get through this alive

Haven't you learned?
In a heartbeat
The world could turn,
The world could turn.
