Rabbit Hole

Cherry Glazerr

Maybe, baby, I won't leave you for dead
Jaded savior in my own very bed
Ashes, ashes, ashes and little tricks
I'm telling you, I have these loose lips

You are sweeter, than what was in my head
But you brought me in this world and you can take me out of it
I'm crazy for loving you
I'm crazy for loving you

Good for now and it isn't too painful
This what you get when you never stay
Open up my heart and I wouldn't be shameful
The truth is people never really change

Tried my best not to be disgraceful
But you led me down a rabbit hole
Tried too hard not to be distasteful
But it led me down a rabbit hole

Maybe, baby, I won't leave you for dead
Hanging onto every word you said
Infatuated with your little tricks
I'm stretching you out like elastic

You are sweeter than what was in my head
But you brought me in this world and you can take me out of it
I'm crazy for loving you
I'm crazy for loving you

I didn't believe in this way
Of living
But you held on to me anyway
Guess this is loving

Tried my best not to be disgraceful
But you led me down a rabbit hole
Tried too hard not to be distasteful
But it led me down a rabbit hole

Tried my best not to be disgraceful
But you led me down a rabbit hole
Tried too hard not to be distasteful
But it led me down a rabbit hole
