

# Shattered

Cherry Glazerr

I am your smile  
You sent all of those letters to me  
Pulled me like glass  
If only I knew better

All you have  
Now, I think I'm shattered

I'm your only one  
Shattered  
Why'd you pull me along?  
If only I knew better  
Shattered  
From you  
If only I knew better from you

I can't go back  
You put me all together again  
I am your smile  
I need you more than ever

All you have  
Now, I think I'm shattered

I'm your only one  
Shattered  
Why'd you pull me along?  
If only I knew better  
Shattered  
From you  
If only I knew better  
From you

From you  
If only I knew better  
From you
