

Sweaty Faces

Cherry Glazerr

I hear the birds but it's black as night

Oh, you're so far from me now

Oh, don't tell me where to go and where to stay

Oh, have a lovely fucking day

Oh, your name is so cold and so black on my skin

Where do I begin?

I wanna see your sweaty face kids

I wanna see you jump on stage

I wanna see your sweaty face kids

I wanna see you jump on stage

I run outside with no shoes on, my dear

I run away from your fear

I hear the birds but it's black as night

My brain is confused, my brain is confused

My brain is confused, my brain is confused

You're no use, my dear
