

Texas

Cherry Glazerr

I already know what you need
I already know that you need me
I already know what you need
I already know that you need me

Stuck to you like superglue
'Cause of you I got hit with a case of devotion

I'm on cloud nine don't trip have a good time
You're on my mind it's sick throw me a line
I'm on cloud nine don't trip have a good time
You're on my mind

I already know what you need
I already know that you need me
I already know what you need
I already know that you

I'm on cloud nine don't trip have a good time
You're on my mind it's sick throw me a line
I'm on cloud nine don't trip have a good time
You're on my mind

I'm on cloud nine don't trip have a good time
You're on my mind it's sick throw me a line
I'm on cloud nine don't trip have a good time
You're on my mind
