Satellites

Cherry Monroe

My heart has now bled
Your lipstick sweet cherry red
Look at those bright blue eyes
No need to flip the switch
When i look at you i squint
D-d-damn you light up the room

I want to take you home tonight
I'd take you home forever
I'm staring at satellites
I want to take you home tonight
I'd take you home forever
I'm staring at satellites

She dresses like a popstar
I'm feeling so far away from reality
It aint hard to understand she can break any man
B-b-by the way that she moves

I want to take you home tonight
I'd take you home forever
I'm staring at satellites
I want to take you home tonight
I'd take you home forever
I'm staring at satellites

Ive come undone
Its easier said then done
Its easier, its so easier
Ive come undone
Its easier said than done
Its easier, its so easier
