

Bigger Life

Cherry Poppin' Daddies

I'm down for adventure
Too loud to live small
Too proud to be captured by the grim

I've got one chance
And I choose to stand
I look to the future and my
My freedom's at hand

I want a Bigger Life
Than the one that surrounds us
I want a bigger, and badder, fatter
Ladder to the stars
I want a Bigger Life

Long distance swimmer
Headed straight for the storm
I'm out of my depth but on my way

Most people die with their
Music still inside
So cough all you want little man
I'm opening wide
I want a Bigger Life
Than the one that surrounds us
I want a bigger, a badder, fatter

Ladder to the stars

I want a strenuous life
One won and lost on the edge of a knife
I wasn't made for these comfortable times
I'm gonna live
I'm gonna live

I've been withholding
But I'm done with that
Not dumbing myself down to fit in

You can stare, you can swear
Go ahead and punch the air
There's nothing left
It's too little in here

Yeah, you misjudged me
I am the sun
I'm the explosion
The boom has begun
Bigger Life
Bigger Life
Bigger Life
Bigger Life
Bigger Life
Bigger Life
Bigger Life
