

# It's Your Love

Cherryholmes

Everyone is searching hard  
Gazing out upon the stars  
Realizing true love's hard to find  
Many people won't awake  
Ever making same mistakes  
Chasing dreams that soon leave them behind

(chorus tag)

It's your love---  
It's your love---

People seem to never learn  
Even after failure burns  
Jump before they have a chance to see  
Time has made me realize  
I need your love just to survive  
Without you, I would not be me

(chorus)

It's your love---  
(It's the one thing that keeps me from  
falling)  
It's your love---  
(It's the one thing that's bigger than all  
things)

You are the reason I live and I breathe  
You are the piece that's completing in me  
It's your love---

(bridge)

So much time is ill-spent, hoping their  
heart finds a place it can rest  
I've found that place in your arms, and I  
know that I've found what they're  
all looking for

(chorus)
