

Black Magic

Cherub

First we ran to the desert
To find some rare [?]
And be some place warmer
Where we could make our love official
Then we drop acid
Dibs on black magic
But nothing happen
Except the fire that turned us into ashes
And made us disappear just like some has beens

This ain't a love song
Yeah it's a drug song
And if you're groovin', baby
Then just groove on
(Yeah, then just groove on)
Yeah, baby, then just groove on

Yeah I wanna know right now
What all of this means
Take all my fears and doubts
And cast them away at sea
Cause our love, our love, our love, our love, our love, our lo-
o-o-ove
Is somewhere inbetween
Real life and a dream

We jumped into the ocean
And just started floating
We were light as a feather
Nothing could feel better
Except maybe real love or maybe good drugs
Or maybe us indulging in all of the above together
Forever and ever and ever

Yeah I wanna know right now
What all of this means
Take all my fears and doubts
And cast them away at sea
Cause our love, our love, our love, our love, our love, our lo-
o-o-ove
Is somewhere inbetween
Real life and a dream
