

Closer To Me

Cherub

Blue skies
Seem to happen more than my cloudy days, oh-oh
My eyes
Are open more wide than they used to be, mmh-mmh

You know that I hope to
Make it up to you, now that I have changed, oh
Took you
For granted, I know that I am the one to blame
Yeah it's all on me, no-oh-oh

Move a little closer baby, don't you cry
I wanna be the one that keeps you high
Move a little closer baby, don't be shy
Don't hold back, just free your mind

I like
The way you move the clouds from side to side, no-oh
The only
Thing I want to do is to make you smile, all the time

So let's
Pop a few and drink all day into the night, mmh-mmh
Wake up
With the sunshine and we're feeling fine
Let's do it one more time, go-oh-oh

Move a little closer baby, don't you cry
I wanna be the one that keeps you high
Move a little closer baby, don't be shy
Don't hold back, just free your mind
