

Coconuts

Cherub

My girl so choosy
But don't call her bougie
She act so snooty
When I buy us the room, uh
No reservations
Just one obsession
Her and her best friend
Yeah me plus two, ah

She get a little bit coconuts
Every time I talk about teamin' up
She get weird when I bring it up
I guess that's a no for now

I get a little bit coconuts
Thinkin' 'bout the dinner that she serving up
Enough grub, we should share the love
I know we can work it out, yeah

My girl so special
Her friend so special, yeah
Let's make death metal, ow
In the bedroom, ha-ha

Uh, don't try to fight it
I know we'll like it
Try a lil' bit in private, hm
Yeah, me and you
Ay you too, woo!

She get a little bit coconuts
Every time I talk about teamin' up
She get weird when I bring it up
I guess that's a no for now

I get a little bit coconuts
Thinkin' 'bout the dinner that she serving up
Enough grub, we should share the love
I know we can work it out, yeah
I know we can work it out, work it out
I know we can work it out
I know we can work it out, work it out
I know we can work it out

She get a little bit coconuts
Every time I talk about teamin' up
She get weird when I bring it up
I guess that's a no for now

I get a little bit coconuts
Thinkin' 'bout the dinner that she serving up
Enough grub, we should share the love
I know we can work it out, yeah
I know we can work it out, yes I know
I know we can, I know we can work it out

She get a little bit coconuts

Every time I talk about teamin' up
She get weird when I bring it up
I guess that's a no for now

I get a little bit coconuts
Thinkin' 'bout the dinner that she serving up
Enough grub, we should share the love
I know we can work it out, yeah
I know we can work it out, work it out
I know we can work it out
I know we can work it out, work it out
I know we can work it out
