

Dedicated To The Bubble

Cherub

Girl, I think about you when I fall asleep at night
Rubbing on myself right before I close my eyes
Last time that I saw you those pants were my delight
All that I could think about was in between those thighs
I apologize

'Cause all I want
Is a little bit of everything you've longed
Quit holding back from me. I wanna see it
Ooh la la la la
Ooh la la la la, baby
Ooh

I don't fuck with spells, but, girl, you've got me hypnotized
The way your backside jiggles makes me feel all warm inside
I'm not that emotional but your ass makes me cry
Shakin' it in my face, don't let those pretty cheeks leave my sight

'Cause all I want
Is a little bit of everything you've longed
Quit holding back from me. I wanna see it
Ooh la la la la
Ooh la la la la, baby
Ooh

Holdin' off a life war
Lookin' for a life of
Something I can use to
Help keep my head afloat

'Cause I'm sinking, yeah
I'm sinking quick
I wish that I learned how to swim
There's no way I'll make no friends
In the depths of the ocean

Yeah, I'm sinking
One more shot
And things will be different
After one more shot

Dancing with no clothes on,
Tell me what is so wrong
Bitch, just keep your mouth shut
You don't know how to have fun
You don't know how to have fun
Oh, man

I keep on singing, mm, mm
Oh, yeah, I keep on singing
One more shot, yeah
And singing, oh, oh, oh
