Disco Shit

Cherub

I know. I know you think I'm crazy.
But don't waste your time.
Don't Worry about me baby cause I'm just sleep deprived.
I gets so hard doing all these lines
But try to keep up so we can both lose our minds

This is that Disco Shit that keeps you up all night
Makes you want to move and keeps you on our mind
This is that Disco shit that makes you feel alive
And makes you forget all about the time

I hope you don't regret it cause fun is hard to find
Love is always easy when drugs are on your mind
nothing is wrong when you blow the lines
Pick a new song. I missed that. this will do just fine

This is that Disco Shit that keeps you up all night
Makes you want to move and keeps you on our mind
This is that Disco shit that makes you feel alive
And makes you forget all about the time
