

Don't act like you're not having fun
Cause you know you are
Yea you know you are
Don't act like you're not fucked up
Cause you know you are
Yea you know you are
So...

Burbon whiskey got us tipsy
Bottle empty
I feel you, you feel me
So...

Don't act like you're not having fun
Cause you know you are
Yea you know you are
Don't act like you're not fucked up
Cause you know you are
Yea you know you are

The city lights are far too bright
To see the stars at night with you
So let's get throwed and make our own
And see what we can find
Just us two

Wanna get close to the floor so the bottles gone
Swear this city too shitty, we don't belong
Wanna drink and not think trust me you not alone
So drown yourself till you feel home
(Burbon whiskey)
Skipping on Patron
Bottles keep you throwed
Down is where we go
Down is where we go
(Bottle empty)
Now we all alone
Going to the sun
Going to the sun
Going to the sun
Don't act like you're not fucked up
Cause you know you are
Yea you know you are

You know are...
