

# Freaky Me, Freaky You

Cherub

Whisper in my ear say (something special)  
Who cares if you mean it  
Just as long as I believe you  
You always are soo 'cere  
I just want to please you  
Take you out to eat  
Sit you down and feed you

Baby when I think of you  
My problems go away  
I hope that when you think of me  
That you feel the same way,  
You're such a cutie pie  
That I would never think you'd play me  
Like those other guys  
That you switch off from day to day (oooh)

I, I swear I taught you everything you knew  
So, I, I guess I really didn't have a clue  
That you, you have been with a few more than a few  
It's all good  
Just make me feel good  
Cause I say

Fuck that put her on the map, ass so fat,  
Good head to match it  
Yeah yeah yeah  
So we say fuck that put her on the map, ass so fat,  
Good head to match it  
She rides me fast like she's running track (aaah)

Your dad met your mommy  
Back when you were in her tummy  
Since you haven't met your real father  
I guess you can call me your daddy  
Do things that make me happy  
And if I don't approve of your attitude  
I'll send your ass straight to your room  
And make you change my name to papi

I like it when you work it harder  
Teach me things I never knew  
I like it when you work it harder  
Freaky me, Freaky you  
La la la la la

I, I swear I taught you everything you knew  
So, I, I guess I really didn't have a clue  
That you, you have been with a few more than a few  
It's all good just make me feel good  
Cause I say

Fuck that put her on the map, ass so fat,  
Good head to match it  
She's rides me fast like she's running track  
While bumpin Teddy Pendergrast  
Fuck that put her on the map, ass so fat,

Good head to match it  
She rides me fast like she's running track  
While I'm bumping Teddy Pendergrast
