

Hold Me

Cherub

I don't wanna wake up
Just wanna keep my eyes shut
How long can I sleep, with you right here next to me?
Come live, love

Dreams as fake as make-up
But who cares if they're made up?
Fuck reality, it's much better in my sleep,
Eyes stay shut

Money hungry devils
Making green seem evil
Pay me off in cash, I don't care how long it lasts, it comes and goes

Pies split from all angles, much harder to handle
Fuck reality, it's much better in my sleep
Legs dangle

Hold me in my sleep
Hold me in my sleep, hold me forever
Hold me in my sleep
Hold me in my sleep, hold me forever
Nothing's what it seems
Nothing's what it seems, keep it together
Living in our dreams
Living in our dreams, living forever

Hold me in my sleep
Hold me in my sleep, hold me forever
Hold me in my sleep
Hold me in my sleep, hold me forever
Nothing's what it seems
Nothing's what it seems, keep it together
Living in our dreams
Living in our dreams, living forever
