

## Love

Cherub

My only vice is that I care  
I'll take my lips and prove it, I swear  
I want that real love  
Oh-oh, that real love

So many choices, can't wait to share  
Girl, take your tongue and lick me everywhere  
Goddamn, baby, yeah, yeah, yeah  
Toes curl, crazy

My mind goes numb when I catch your stare  
Can't look away, girl, got me standing there  
Eyes all hazy  
That's your effect on me lately, yeah

We done going at it like a marathon  
Some day running half, we running full-blow  
On time, baby  
Don't stop, baby

Look at us sweating in the mirror, though  
Flexing like American Psycho  
Scream my name, baby  
Call for me, baby, yeah, yeah, yeah
