

## Moon Walk

Cherub

I don't wanna hide it  
I feel so excited  
About you and me  
The possibility of  
Being united  
I don't wanna fight it

Oooh ooh  
I don't really want nobody else but you oooh  
Baby your love got me high as the moon  
Every time we touch my heart it melts into two  
Into you oooh

You makin' me  
Feel chemistry  
All the time  
Our legacy  
Is harmony  
We left behind  
Because you and me  
Are meant to be yeah  
We can't deny  
Loving this real can be so hard to find

Oooh ooh  
I don't really want nobody else but you oooh  
Baby your love got me high as the moon  
Every time we touch my heart it melts into two  
Into you oooh
