

Sensation

Cherub

I don't wanna sweat like this forever
Bitch you're the only one
You get me hotter than black leather
Underneath that desert sun

You're so hellacious
Hot as hell you got me burnin' wild yea
And it's contagious
There's a fever in this bedroom we ain't goin' out nah

Coolin' my ass down with margaritas
You can lick the salt around my cup
Don't mean to be forward señorita
A steamy situation's all I want

You're so hellacious
Inhibitions slowly start to disappear
And it's contagious
Put a fever in this body and it's crystal clear that

I can't help this sensation
I can't help this sensation

I can't help this sensation
I can't help this sensation

I can't help this sensation
I can't help this sensation

I can't help this sensation
I can't help this sensation
