

# Thru It All

Cherub

We all got our problems yeah I know it  
Yeah I've seen it, and I show it  
Always livin' life outside the moment  
So if I call you out, you better own it

I'm right here, thru it all  
If I see you fall, I will catch you don't you worry  
'Cause I'm here, thru it all

Sometimes I find answers at the bottom of the bottle  
I don't have to think much, just close my eyes and swallow  
Might not be the best way to drown out all my sorrows  
Benders on the weekdays, they make me feel so hollow

Be here, through it all  
If you see me fall  
Help me get back up and hold me down  
Through it all  
If you see me fall  
Help me off the ground and hold me down  
Eh, oh, eh, oh-oh  
Eh, oh no  
Hold me down, yeah hold me down  
Eh, oh, eh, oh-no

Just be here through it all  
If you see me fallin'  
Help me get back up and hold me down  
Through it all  
If you see me fallin'  
Help me off the ground and pick me up

Hold me down  
Hold me down  
Pick me up and hold me down  
Hold me down  
Hold me down
