

Where We Should Be

Cherub

I think we're on the same page
At least we ought to be
You tried a safe base
And hold out on me
I know your secrets
And who you try to be
So what's the plan now
Tonight is everything

Oh

So if you go
I wanna know
I'll bring the bottle
You bring the blow
Then we can party,
Drink while it snows

Yeah
Anything you want babe
No one is here to stop and say

No -oh oh
No -oh oh
No -oh oh
No one's here to stop and say
No -oh oh
No -oh oh
No -oh
No -oh

Our success was meant to be
And you and me
Last night was everything
That I need

Let's do it all again
Slow down the speed
I think we're on the same page
We both had time to breath

Oh

So if you go
I wanna know
I'll bring the bottle
You bring the blow
Then we can party,
Drink while it snows

Yeah
Anything you want babe
No one is here to stop and say

No -oh oh
No -oh oh
No -oh oh

No one's here to stop and say
No -oh oh
No -oh oh
No -oh
No -oh
