It's Gonna Be Tough

Chesney Hawkes

No use in crying, but its so hard
You see the ones you really love fall so far apart
They swear they love you
They smile and they bluff
Let me tell you

Chorus:
Youre gonna make it
But its gonna be tough
Its gonna be tough
Its gonna be

Knives and needles and greed on the street
You get promises of paradise from everyone you meet
But dont believeem
Theyre playing so rough
Just remember

(Chorus)

Aint no time to sit and cry
Live your life its all youve got
So, feel alright
Its so hard today
Need a hand to fly away tomorrow
Stop feeling sorry for yourself
Youve got a lifetime in front of you
Dont need no help
You just need strength and a little bit of luck
Let me tell you

(Chorus)
(Repeat last line of chorus)

Let me wish you good luck
