

## That's What I'll Be

Chester See

When tears find your eyes and you're feeling like life's got you  
down  
when you feel so alone and there's nowhere to go don't you cry  
thinking that you can't go on  
cause everything you try just goes wrong

I'll be that shelter in the rain  
if you say you need a sunny day  
then I'll be that sun when you need it to shine  
and I'll move mountains and lakes  
if you say that they're in your way  
just like the stars I'm your light when it's too dark to see  
just say the word and I'll be  
Whatever you need  
know that you'll always have me  
and thats what I'll be

I'll share the weight when it's too much to take let me know  
we'll fight things together I'm by your side forever I won't go

thinking that it's too much to bare  
just know that I'll always be there

I'll be that shelter in the rain  
if you say you need a sunny day  
then I'll be that sun when you need it to shine  
and I'll move mountains and lakes  
if you say that they're in your way  
just like the stars I'm your light when it's too dark to see  
just say the word and I'll be  
Whatever you need  
know that you'll always have me  
and thats what I'll be

I'll be that shelter in the rain  
if you say you need a sunny day  
then I'll be that sun when you need it to shine  
and I'll move mountains and lakes  
if you say that they're in your way  
just like the stars I'm your light when it's too dark to see  
just say the word and I'll be  
Whatever you need  
know that you'll always have me  
and thats what I'll be
