

Drive By Earth Music

Chester Watson

Sometimes I wanna cry
Sometimes I wanna fly away
Sometimes I wanna die
Sometimes I just need time and space

It's for people on the sidewalk that just want the time of day
Moms told me son your angry and you need to find some patience
But my soul too stirred up
Demons gotta shake 'em
Turn this bowl to a furnace, I ain't eating lobster plates
But the whole crew turnt up, in and out of state
I'm an artist not a rapper but I rap it like I ain't
And this word to Nipsey Hussle catch me laughing to the bank
And I'm working shift in hustles, probly craftin' every day
So I'm working different muscles, feel like I'm back in Ballet
And my shorty thic, I ain't the only one stackin' cake, nigga
It's that drive by earth music
Convertible coup lookin' at the earth zooted
If it hurts it's the truth
And locomotion I can show you what verbiage can do
Keep your head high, even though it can hurt when you loose
Watchin' lead fly, they won't show worth is the news
Nike off white Louis V just over the shoes and they ran all of
'em they just verdict bastoon
I driven past earth and the moon
Heighten my energy, people know what I'm workin' to do
Mindin' my enemy, keep perspectives I know how to move
I really wanted attention I never showed out in school
Eleventh in my class left for early rolled out in ghoul
Went out to Europe and I knew I couldn't go out a fool
People closed minded go in circles like rotary tools
Even though I know I'm not perfect I grow and improve
I grow and improve

Sometimes I wanna cry
Sometimes I wanna fly away
Sometimes I wanna die
Sometimes I just need time and space

Sometimes I wanna cry
Sometimes I wanna fly away
Sometimes I wanna die
Sometimes I just need time and space
