

Old Pictures

Chester Watson

Told my old pictures, don't be heartless
I told them, "Do not seek the darkness."
Not a GOAT, I am the greatest of them all and
In a drug induced coma, astronaut shit
Floating through this chasm
Bitches hoping I don't pass em' up
At the show, I'm with my niggas
Bet we gassed as fuck
Chester Watson live in a mystery
Don't react to the bullshit
But I really wish these niggas wouldn't ask as much
Informal apparel if you want fashion
I'm killing this shit
The coldest of pharaohs
Gold in my glasses, I
Hold assassins on the speed dial
And getting ass just comes with ease now
Well, it always did but then I had morals
Now I get off tour and got some undercover whores
Just waiting to fuck my life up
I might let em'
Before they enter, have my nigga mic check em
Looking at some old pictures
I'm feeling heartless
My momma told me, "Do not feed the darkness."
Not a GOAT, I am the greatest of them all yet
I'm in a drug induced coma, astronaut shit
I'm on my star shit
I'm with my niggas getting faded in the starship
We got the whip, we getting Shane and then we sparkin'
And all these people think I'm from space like I'm Clark Kent
