

Shapeshifter

Chester Watson

Shapeshifting with some [?] teens that
Be my silly pickens probably pockets in my jeans
Rolling up green, shooting jolly rockets with the team
Cool, calm, clean, triple Cs, gotta keep it G, son
Double D's for her TT's, watching DBZ
Sample it, make a beast beat, go eat
Dismantle it, that's what we had to do, kicking it with Feebz
Where the weed? Roll it up, can you pass it dude?
You can't create one, so imagine two
It's 6 AM, I'm zoot as fuck, I had to drag through school
These niggas don't got they heart in it, it's the math for you
The truth is clogging more arteries than the faster food
Producer first, so I stack instrumentals
Nu Age respected or it's a slap to the temple
With my fist, though, girllies like my laugh cause my dimples
Plus my smile so cute, I bet it'll freeze 'em like igloos
I'm in a different universe when I'm writing
Call me Hades, underworld, chilling with my biting
I'm a Pisces like Poseidon, I roll with a golden trident
Or I'm Zeus in the sky cause I'm striking down with some lightn
ing, bitch
I will not fight a bitch, my momma taught me right, you dig?
Never bought one but I'm steady flying kites and shit
Used to be a fish, but then I grew to a Leviathan
Outfit is all black and hella fly like my psyche is
