

# Teleportation

**Chester Watson**

Sometimes I wish that I could teleport  
Sometime I wish that I could  
But who am I to decipher, what's in mind, when I light up  
Going blind, losing sight, losing Time  
That's my biggest fear in life, get yo vibe up  
Had a dream that death and I went out to tango tore the night u  
p  
Golden chains around the idols in my manor  
Keep yo manners, haunted manor think I signed up for it  
But I left, I'm on a beach somewhere outside the forest  
Facing blunts. think I'm tasting blood  
People claiming they the realest, really be the lamest ones  
I wish that I could teleport
