

## A Dandy Line

Chet Baker

I need some help, help to decide  
Whether it's our love that steps out of time  
You say you need time on your own  
Time to accept how our love has grown  
And when you think about  
All of the bad in me  
Think about this too  
How me and you could forever be  
In need of help, help to expand  
With each others minds together to plan  
Time in our lives, time on our own  
So one day we'll see our love has grown  
And when that day arrives  
I don't know where we'll be  
But I hope that trust can be for us  
And you'll still love me  
I need some help, help to be found  
When you are alone I won't let you down  
We all need time, time on our own  
So we can step back and see how love's grown  
And when I'm stepping back  
I hope that I will see  
That faith can play a part today  
For both you and me  
And if love needs help  
And if love needs time  
Give love the strength  
To walk a straight line
