

Medication

Chet Faker

You got me talking 'bout the truth for so long
It's got me wondering where I even started
I'm truthfully gone
You got me thinking overcomplicated
Been trying to find a space in my own
It's like I'm needing something even darker
Predictably wrong
I guess I think it's kind of overrated

Take your time
Take your time

I'm the medication
And you can be the patient
I'll set the regulation
Avoid the complication
Said I'm the medication
Now I'm the medication
And you can be the patient
I'll set the regulation
Avoid the complications
Said I'm the medication

I think I'm starting not to lose what I said
I'm realizing what a sacrifice is
I'm thinking in red
Yeah I think I want to converse it
Been trying to find a space in my own
It's like I'm needing something even darker
Predictably wrong
I guess I think it's kind of overrated

Take your time
Take your time
Take your time
Take your time

I'm the medication
And you can be the patient
I'll set the regulation
Avoid the complication
Said I'm the medication
Now I'm the medication
And you can be the patient
I'll set the regulation
Avoid the complications
Said I'm the medication
I'm the medication
And you could be the patient
I'll set the regulation
Avoid the complication
Said I'm the medication
