

## Anticipation

Chevelle

This anticipation  
Seen in you  
As you prepare for new life  
Don't forget your war  
The cuts on his hands, speak a little louder  
He takes that side, and lets you know

And what's in his speech, hands cover face  
Yeah what's in his, you cover your  
your face, face, face, face

Now you're anticipating  
What went wrong  
In this world we fall back into  
Just isn't strong  
The cuts on his hands, made way to his face  
These spoke all the louder, my silent regret  
I show that side, the pride of life  
Won't let go

And what's in, hands cover  
Yeah what's in his, you cover your  
And what's in his speech, you cover your face  
Yeah what's in his, you cover your  
Face, face, face, face  
Your face, face, face, face
