Endlessly

Chevelle

This silent sulking time is up
Unearth a movement to breathe in full
'Cause this depends on his demands
To seize a moment of fear within

Ten times we've gone down that road

All
This
Time
Felt slow

We're alone
Underground
Where we'll grow
Endlessly

I drew a line in the sand around
So pardon man, don't you burn this all down like it's yours
We're living now, tell ya' no more doubt
I heard a cry that's your virtue left stepping on toes

Till the years lay dust
Till now we've thrown out devils

All
This
Time
Felt slow

We're alone
Underground
Where we'll grow
Endlessly

Well I never thought of cutting you loose
And I never minded carrying you
Till the final curtain ever does fall
I'll say, "Goodbye, a calling to"

All
Of this
Time
Felt slow

We're alone
Underground
Where we'll grow
Endlessly

All of this
(Well I never thought of cutting you loose)
Time
(And I never minded carrying you)
Felt slow

We're alone

(Till the final curtain ever does fall)
Underground
Where we'll grow

(Don't say, "Goodbye")
Endlessly
(I'm calling to you)

Calling to you
Endlessly

All of this
Time
We're alone

Endlessly
