

Hallucinations

Chevelle

Will you warn us when we go?
Time won't stop this unknown
Leaving some past life
Proving how we've grown
Nighttime hasn't answered very much

Well, my friends
We all are out of moves
We are all arm in arm to doom
And freedom exists
Yes, freedom exists

True freedom
Fearing the common alpha wolf
Too many enemies still haunt
Leaders
You preachers incite crowds
Fate has truly hunted you down

Well, my friends
We all are out of moves
We are all arm in arm to doom
And freedom exists

Well, my friends
We are all out of moves
We are all arm in arm to doom
And freedom exists
Yes, freedom exists

Hallucinations
True freedom is this, true freedom is this
Hallucinations
