

Humidity

Chevelle

Now I can work free
Take me, please
The ocean inside
Boiled down to me

Amazing we work it all
We fed the grass; getting taller
Amazing the bullet came
The shot is fine
The skin will kill

Feel like humidity, false lives
Step back to conquer each top speed
Unfortunately, keeping me with it
Pray, teach me

Amazing, look at the sky
A fast one screams, "What am I?"
Amazing the bullet came
The shot was fine
The skin will kill

White flame, no
Why call?
Lay here

Now I can work free
Take me, please
The ocean inside
Boiled down to me

Amazing, look at the sky
A fast one screams, "What am I?"
Amazing the bullet came
The shot was fine
The skin will kill

White flame, no
Why call?
Lying here

I fell down
You look around
Just shake them out
Dear Mother

Flames here
Why call?
Lay here
