

# Karma Goddess

Chevelle

Trust us

Did I offend you?  
And yes, I meant to  
Somebody feeling cross  
Somebody can't adjust  
How about you, goddess?  
Simply the hottest  
And when the feelings pull

They said my blindness needs  
To be cured  
They said my blindness eats  
At their nerves  
Hey, simple reminder, kid  
Dying hills, they said my  
Blindness needs  
To be cured  
Trust us

Ya got those silent laws  
And got the benefit of victims  
Looks like you're finally exposed  
I say your foot's caught  
Night lit  
Eyes fixed  
Insight of it  
No wonder lines get crossed  
This undying love for kingdom  
Come and  
Somebody burst the bubble  
Of this fairytale

Remember your truth  
Oh, if they summon you

They said my blindness needs  
To be cured  
They said my blindness eats  
At their nerves

Hey, simple reminder, kid  
Dying hills  
They said my blindness needs  
To be  
Cured

Trust us, simply trust us  
Trust us, simply trust us  
Trust us, simply trust us  
Trust us, simply trust  
Trust

They said my blindness needs  
To be cured  
Take a piece of my nerves, ya gotta eat  
They said my blindness eats

At their nerves  
Take a look at the past and its anomalies  
Hey, simple reminder, kid  
Dying hills

There's something when your karma looks  
When your karma looks  
There's something when your karma looks  
In the  
Mirror  
Just trust us
