

Long

Chevelle

Comrades bond, this day will be long
Don't count your losses, gain what he gave
And we blame him for having right
Anyone lose a God, cause I found a God
Raise the question that's given here
Ponder his answer, still bleeding clean
And they rhyme you've hidden in
Won't keep long
And we blame him
And we blame him
Reasons I ask you'll know why
As sure as I'm here you'll know why
Because he won't leave me out in the cold
See how the sparrow gets fed from our Lord
Draw Close
And hold me long
