**Chevy Woods**

Have no fear, just say what's on your mind  
To get what you want, you gotta work hard  
Don't care what they say 'cause I'm gon' go for mine  
For mine

And everybody want the top spot  
The bad chick in the drop top  
There's so much more  
You just gotta believe it'll come one day

And I feel alive, alive, alive  
Alive, alive, alive  
And I feel alive, alive, alive  
Alive, alive, alive  
And I feel...

First class flight on the plane, you the man  
It'll all work out when you stick to the plan  
I'ma need a check or a bag full of cash  
Remember when I felt like trash in a can  
I made my own so I live by my rules  
I had shows, ain't nobody come through  
I love the homies 'cause they stayed down  
I'm coming up, you on the way down

Everybody want the top spot  
The bad chick in the drop top  
There's so much more  
You just gotta believe it'll come one day

And I feel alive, alive, alive  
Alive, alive, alive  
And I feel alive, alive, alive  
Alive, alive, alive  
And I feel...  
Ooh  
Ooh

Made it out of nothing  
Always gon' remember one thing  
When it comes to family, that's first  
I been down but it could've been worst  
Real talk, got the game bossed up  
Hit the club, money get tossed up  
I done seen fools change like a crossover  
I done seen bad days but it's not over  
Who the greatest? Who the one? Who the man?  
Stayed the realest and I stuck to the plan  
Tried to stop us but they can't come close  
How you come with me and ain't gon' smoke  
I be different one day and go ghost  
Me and all my niggas tight like rope  
I'ma pour a shot, make a toast  
I came up so I'ma do the most

And I feel alive, alive, alive  
Alive, alive, alive

And I feel alive, alive, alive  
Alive, alive, alive  
And I feel...
