

# Uncle Ty

Chevy Woods

Uh, I'm just trying to get rich  
I stay down nigga, I ain't switch  
Yea, but once that money start pilin'  
At once we stuck on Gilligan's island  
My nigga doing 10, I'm just waiting for the call  
All the problems that he got, money ain't one at all  
Hood ass nigga got a way with them words  
Crack it for my nigga, pour it out on the curb  
Out here giving it my all so the world gon' know  
And if you down for it then the money gon' show  
Been running from them lights like a real nigga do  
Look at what we made and what we did for the view  
You thinkin it's a game, click blow, hold that  
I got 20 niggas that ain't tryna go back, Taylor  
Yea, but don't trip, that's different  
The same 20 niggas all with it, real niggas yea

Sure a nigga know where we go from here  
I've been doing shows, out on tour all year  
And if you work hard everybody know it  
Hate it or love it, everybody gon show it  
Here's yo chance, don't blow it  
Versace frames on, tell them haters I'm focused  
They want me to fall off and I know it  
Man I'm on fire, I'm smokin', real nigga wuddup?

Never lost 100 on the way  
And you've been running round, making plans all day  
Can't get a refund nigga  
You know how that shit go where we from nigga  
Yea, one flip, bounce back  
In the kitchen with a hat then I'm tryna ounce that  
No love for them rats or them snakes in the grass  
If we ain't do business right now do the math  
Yea, all this, that's for nothing  
We'll be there for it, that's something  
Yea, it's a lot more coming  
Like counting up a million and that's in all hundreds, shit  
You know me, I ain't even stuntin'  
I could get anything if I wanted  
You know, black car, chauffeur  
It's just a head nod, no words

Sure a nigga know where we go from here  
I've been doing shows, out on tour all year  
And if you work hard everybody know it  
Hate it or love it, everybody gon show it  
Here's yo chance, don't blow it  
Versace frames on, tell them haters I'm focused  
They want me to fall off and I know it  
Man I'm on fire, I'm smokin', real nigga wuddup?
