

# World

Chevy Woods

Sometimes I just be sittin back  
Drinkin and smokin  
You know  
Sick of your words  
You should want the world

I want it all, yeah  
I want it all, yeah  
I want it all, yeah

Used to be friends with friends  
No, we could never be that again  
Went broke, had to bounce back  
Told myself "never do that again"  
Feends survivin, got my mama nervous  
Late night drunk, I was swervin  
Look at how we came up and got rich  
I remember when we was hurtin  
All of my niggas still down with me  
They the ones runnin through towns with me  
No suckers, no clowns with me  
I gotta keep it around with me  
I'm from the hood, and you never know when it come to them cold cold  
streets  
Talkin tough, but we know that when we see you, it's all peace

I want it all, yeah  
I want it all, yeah  
I want it all, yeah

Woods, what up?  
Seems like I can't trust all the people that's ridin with me  
I remember like it's yesterday, all them pussy niggas still hiding fr  
om me  
I want it all, yeah yeah  
I'm missin my dogs, yeah yeah  
Are you there when I call? yeah yeah  
Today, I get cake  
Make a shake, gotta stack and pray  
Glizzy on me, you don't have faith  
Got a plate for plate  
It's a Rari, it's a Wraith  
Can I fuck your face?  
I just wanna here you say

I want it all, yeah  
I want it all, yeah  
I want it all, yeah
