

## Dear Old Friend

Chevy

My dear old friend  
Don't leave so soon  
There's still so much I wanna share with you  
And see too

Is this really the end?  
Now the only thing that's left of us  
Is in my head

I'm sorry if I cry a lot  
And can't seem to let go  
But since you've been gone it's hard to say  
If I'll ever know  
I'm scared I won't remember you  
But time will only tell  
Block out all the noise  
And all is well

My dear old friend  
Don't hurt your eyes  
Seeing you in all this pain  
Hurts more than my demise  
Just wait you'll see soon  
That it's better once you let me go  
And see it through  
Hmm
